

# The Saab Heritage: A proud legacy of innovation

For over 70 years, Saab has been a champion of innovation and individuality. That unfaltering dedication to knowledge and passion helped create the iconic design you know and love today. Even though the car is no longer being made, Saab remains one of Sweden's strongest global brands for a reason: born from fearless ambition and a love of the unique and unconventional, Saab is truly original – and there is only one original.

## Saab Milestones

1937

Saab – Svenska Aeroplan Aktiebolaget founded to build military aircraft

1947

The first Saab, dubbed the “UrSaaben”, is presented

1976

The Saab Turbo is born

2013

In November, Saab Automobile Parts AB is renamed Orio AB

2017

Turn the page to find the Saab Official Service Center that can handle all your collision needs

## Orio: The exclusive supplier of Saab Original

For 70 years, Orio has been the exclusive supplier of Saab Original Parts. No other company can say that. This long and proud history has gifted us expertise and heritage closely intertwined with the Saab brand. Today, there are over a million Saab cars worldwide, and Orio aims to provide the quality parts needed to keep those automobiles and their drivers on the road.

# 70 years of **Saab** **Original** Parts

# Stay Original: Guaranteed Quality with Saab Official Service

Saab has always been a unique car for unique people. There are still over 300,000 of these cars in the US, concentrated mostly in the northeast – and these all require maintenance. Choosing Saab Original parts guarantees that every Saab that comes through your doors for service will remain 100% Saab.

Orio's Saab Original parts have been developed by the skilled engineers at Saab Automobile, ensuring the highest standards of safety, performance and driving pleasure. Saab Official Service Centers not only have unlimited access to these parts, but our exclusive 2 year/24,000 mile limited warranty on all Saab Original parts as well. Combined with 24-hour access to our Electronic Parts Catalog, the support of our Parts Help Line and the availability of resources such as data/maintenance manuals and diagnostics/calibration systems, Saab Official Service Centers offer the parts and tools necessary to help Saabs stay original.
